# Preface

The Human Resources Management System Code Book is the Government of Andhra Pradesh initiative to standardise important entities which are commonly used by various departments in their daily financial/non-financial transactions, reduce costs in rebuilding databases, ease inter-departmental and intra-departmental communications and enhance the information extraction across departments of Government.

While preparing the standard I have studied the masters available in e-Nidhi, Biometric Attandance (AEBAS), e-Office applications as well as the structure of Government of Andhra Pradesh as it exists today.

The HRMS Codebook is administered by Nodal Authority in GAD with inputs from Finance department, IT department and other administrative departments. The HRMS Codebook is updated once in a quarter or as and when the need arises.

The purpose of HRMS Codebook is to immediately adopt a standard i.e. a single system of codes in e-Nidhi (SAP) of Finance Department, e-Pragati of IT&C department, e-Office and AEBAS being implemented by GAD, and any other applications that will be developed in Government.
